HOUSE OF STYLE

A GREAT SHOWING! VIPS CAME OUT TO THE 2021 GALERIE HOUSE OF ART AND DESIGN PREVIEW EVENT

Top designers from all over the country gathered to celebrate each other's work at the Galerie show house.

Live artfully! The pristine pages of *Galerie* magazine vividly came to life at the Galerie House of Art and Design's VIP preview event in Sag Harbor, N.Y., on Aug. 5. "The concept of combining art and design into an immersive experience all in one magnificent home truly embodies the editorial spirit of *Galerie*," said **Lisa Fayne Cohen**, the magazine's founder and editorial director. The 12,500-square-foot estate was transformed by a talented line-up of artists and designers carefully curated by the publication's editorial team. "We selected designers who are celebrated for their ability to create extraordinary rooms that

showcase exceptional works of art," noted **Jacqueline Terrebonne**, editor-in-chief of *Galerie*.

Making an already epic installation even more special, proceeds from the show house will benefit the construction of Stony Brook Southampton's much needed East Hampton Emergency Department. And the best part? The Galerie House of Art and Design is now open to the public and available for viewings through Sept. 6.

Cabinetry kings Bob Bakes and Paul Kropp surveyed the scenery.
